Hi Shelley,

Attached is a spreadsheet showing the hand wash stations with low soap, paper towel, or water levels. A separate spreadsheet shows the portable toilet assessments indicating conditions such as needs service, paper towel, toilet paper, among others.

Two fields are added in the portable toilet spreadsheet:

- **Unit Last Service Date** - the last service date recorded by your staff as shown in the log, if available, posted on a unit
- **Object** - value indicated is YES or NO where YES indicates the presence of objects in the toilet.

The locations were assessed today, May 12, 2020. Please let me know if the additional data is sufficient for your operations.

Thanks, Shelley!
